

About this Manual

This is the manual for your Trip computer.
Check for updates at bontrager.com.

Welcome.

Safety

When riding your bicycle, do not stare at the computer for a long time. If you do not watch the road, you could hit an obstacle, which might cause you to lose control and fall.

Understanding the Instructions

The numbers indicate the order in which to push the buttons. More than one arrow means you should push the button until you see the value you want.

Setup Mode

Ride Mode

- 1 Wake the computer: push any button or spin the wheel.
- 2 YES (starts a new ride and erases trip memory)
NO (leaves trip memory intact so the computer records as a continuing ride)

Speed functions

Secondary functions

Pacer (faster or slower than your average speed)

Quickview (Displays clock for 3 seconds)

Backlight (Trip 200 only)

Additional

Low battery

Switch to Setup mode
