Dear Trek Consumer,

The purpose of this letter is to explain that Trek is recalling the following models of lights:

- Bontrager Flare RT (sold individually)
- Bontrager Ion 700 RT (sold as part of Bontrager Transmitr Lighting Set w/ Remote)

A limited number of these lights were made with incorrect components. A light with incorrect components may not pair with a controlling device or function in a stable manner. If this happens, the light could turn off unexpectedly, possibly making it hard to see the roadway or making the rider less visible. With reduced vision or visibility, the rider could be involved in a serious accident.

The safety of our customers is very important to us. Therefore, Trek will replace an affected light, free of charge. This letter contains important information regarding what to do next if you think you may have purchased one of these lights.

**AFFECTED MODELS**

Only lights manufactured during specific dates are affected. The table shown here lists the affected product, the manufacturing date and code, and where to find the code on the product.

**DO NOT USE THE LIGHT UNTIL IT HAS BEEN INSPECTED**

If the light turns off unexpectedly, the rider could be involved in a serious accident. Do not use this light with a controlling device until you have reviewed the date code on the product to determine if it is affected by this recall. If you are unable to conclude whether it is affected, take the light to a Trek retailer for inspection or call Trek Customer Service.

**WHAT TREK WILL DO FOR OWNERS OF A RECALLED LIGHT**

If you own a light that is affected by this recall, Trek will provide you—through a Trek retailer or Trek Customer Service—a free replacement of the affected light. All shipping costs associated with returning your recalled light will be paid for by Trek.

In addition, if you replace your recalled light through a Trek retailer, Trek will give you a coupon worth $20 off your choice of Trek or Bontrager products. The coupon is good through December 31, 2017.

If you have any questions, please contact a Trek retailer or Trek Customer Service.

**THANK YOU FOR BUYING A BONTRAGER LIGHT**

We sincerely apologize for any inconvenience this problem might have caused you. We value you as a customer and want you to enjoy your Bontrager light. We hope that after your Bontrager light is replaced, you will continue to safely enjoy cycling.
